

# WASIM AL-HADDAD

Curriculum Vitae / Resume

# WEB DEVELOPER

## Contact Information

**Address:**

P.O. Box 384 - 00606  
Nairobi, Kenya

**Mobile:** +254 733 438933**E-mail:** [mail@wasimalhaddad.net](mailto:mail@wasimalhaddad.net)**Website:** [www.wasimalhaddad.net](http://www.wasimalhaddad.net)

## Career Objective

To be technically and commercially strong in the IT industry, preferably in Web Development and to produce quality work in a creative environment.

## Personal Information

**Nationality:** Kenyan  
**Birthdate:** 05 Jan, 1984  
**Gender:** Male  
**Marital Status:** Single  
**Languages:** English, Kiswahili

## Professional Experience

**Feb 2005 - Present:** **Job:** Freelance Web Developer  
**Technologies:** ASP.NET, AJAX, HTML, XHTML, Javascript, CSS, XML, MS SQL, MS Access, open source apps ([DotNetNuke](#), [BlogEngine.Net](#))  
I've developed and maintained a number of websites and have gained a lot of experience in ASP.NET & CSS coding.

Some of the projects I have worked on are:

[www.kuonatrust.org](http://www.kuonatrust.org)  
[www.sponsoredarts.org](http://www.sponsoredarts.org)  
[www.trainingsolutions.co.ke](http://www.trainingsolutions.co.ke)

**Feb 2010 - Jul 2010:** **Company:** iSys Software Kenya Ltd. ([www.isys.dk](http://www.isys.dk))  
**Job:** HTML, CSS 2.0 & Javascript Specialist  
**Technologies:** HTML, Javascript, jQuery, CSS  
**Responsibilities:** Front-end development/styling of a work assessment application. Some of the tasks included creating different themes of the web application and User Interface development using HTML and jQuery.

I also did project-based work for iSys Software Kenya Ltd. where I was given the task to create an HTML equivalent of Photoshop designs. The process of creating the HTML involved the initial stage of slicing up the Photoshop designs to extract the images and the necessary UI graphics. From there after the styling and layout of the HTML would be done through CSS. This layout was strictly done using DIVs and no Tables.

**Mar 2006 - Aug 2007:** **Company:** Visergy Ltd. ([www.visergy.com](http://www.visergy.com))  
**Job:** Web Developer  
**Technologies:** ASP.NET, HTML, Javascript, CSS, XML, MS Access  
**Responsibilities:** Back-end development of clients web sites with CMS (Content Management System) integration.

You can find a complete list of projects I have worked on in my [online portfolio](#).  
Note that some of the sites are now out of my control and may have been updated by someone else or are inactive.

---
